INTERNATIONAL COMPANY COMES TO WARWICKSHIRE LARGEST TENDER DATABASE IN EUROPE.

Tender Services Limited has recently launched its new UK website. www.tender-service.co.uk

The office in Warwickshire will be the base for the sixteenth country to become part of the already very successful Tender Service group, whose head office is in Vienna.

“The number of tenders published is one of the most important reasons for choosing a certain tender service provider”, says Managing Director Heinz Derndorfer. We have invested a lot in procuring tender information and can now boast the largest database in Europe. Our new UK branch will provide a service specific to the UK and access to both national and EU tenders.

The Customer Service Support team and the sophisticated search technology that Tender Services uses, directly targets tenders to match specific businesses requirements. This can save huge amounts of time and money for customers when they are searching and selecting tenders.

Companies who are interested in the service can test for 14 days completely free, with no obligation. Permanent access is available from as little as £288 per year (£24 per month). Prices are dependent on the number of regions and profiles required; access to the complete UK and EU database is only £888 per year.
